Your dog needs more medication.

At least two week's notice.

Medication should arrive in the post directly to you.

The process

Speak to your vet about issuing a prescription.

May be up to two weeks wait.

- Vet writes and sends prescription to the Pharmacy
- For long-term medications please request your vet writes a prescription for three months
- If your dog is on more than one medication, please request all medication on the same prescription.

If you have not received a prescription after two weeks get in touch.
